## EDUCATION

**Bachelor's degree in Computer Science & Business System**  
Chennai Institute of Technology | CGPA:- 8.43

Chennai, India

## TECHNICAL SKILLS

### Programming Language:

Java | Python | Java-Script

### Front-End

React Js | Bootstrap | Tailwind CSS

### DataBase

MYSQL, MongoDB | Google Firebase

### Back-End

Node Js | Express Js

### No Code Web Design

Wordpress | Wix

### Operating System

Windows | Linux | Mac-Os

## PROFESSIONAL EXPERIENCE

### Frontend Developer

Swell's technologies and solutions pvt Ltd

2023/06 – 2023/07

- Developed MERN Inventory App UI with role-based authentication for efficient management.
- Ensured user-friendly experience through comprehensive documentation and facilitated Agile collaboration for effective teamwork.

### Artificial Intelligence Internship

DLK Technologies

2023/08 – 2023/09

- In depth understanding of web development, including Python, Machine Learning Libraries.
- Implementing flawless connections between networks.
- In depth understanding of Anaconda prompt, neural networks

## PROJECTS

### Book Store Application/ My Library

- React Js, Express Js, MongoDB
- This project is an online book store application designed to provide a convenient platform for users to browse, purchase, and manage books. It uses React for a responsive and interactive front-end, Node.js for a robust back-end, and MongoDB for efficient data storage and management.
- This project's resources <https://github.com/Shanmugavel369/Book-store.git>

### Social Media App / My Funtastic-Socio-App

- React Js, Node Js, Express Js, MySQL
- This project is a social media application designed to enable users to connect, share updates, and interact with each other seamlessly.
- It leverages React for a dynamic and responsive front-end, Node.js for a robust back-end, and MySQL for efficient data management.
- GitHub Link:<https://github.com/Shanmugavel369/Social-Media-APP>

### Blog Website/ My Blog

- React Js, Node Js, Express Js, MongoDB
- Seamless interaction with multiple users with Realtime data transfer.
- Multiple users can broadcast their Blogs which enables social awareness. It has dedicated Admin panel to control the user Interaction.
- GitHub Link: <https://github.com/Shanmugavel369/Blog-App>

## CERTIFICATES

- Cyber Security Essentials - Cisco Networking Academy(CCNA)
- Web Development And Designing – IBM(Coursera)
- Designing User Interface And Experience - (Coursera)
- Introduction To Networks - (CISCO)
- Introduction to RPA and Automation - (UIPATH)
- Foundation Of Data Science - (Google)

## EXTRACURRICULAR

- HACK-FUSION Finalist in the intra College Hackathon
- Solved 200+ problems in Leetcode
